## PARA MEDICAL FACIAL TREATMENTS

TIME PRICE

**IPL SKIN REJUVENATION FACIAL** — A corrective treatment to remove or lighten freckles, pigmentation, sun damage and erase fine lines. Thanks to the action of Or-Light technology, & its active stimulation of the fibroblasts, the skin is revitalised and rejuvenated. Collagen production is vividly reactivated causing the skin to be visibly firmed and toned. After the very first session skin will look firmer, complexion more radiant & texture smoother. With each further treatment, the skin will feel clearer, more supple and will feel softer.

Face 250 / Face + Neck 290 / Neck + décolletage 390

**DERMAPEN SKIN NEEDLING** — This revolutionary clinical treatment gives phenomenal results. The award winning device is safe and effective using microscopic needles to treat a variety of skin conditions while stimulating collagen & elastin production. This treatment guarantees benefits of skin tightening, improved texture, pore minimising, reduced scarring and strengthening of capillary walls. Results are visible after one session however, a course of treatments is recommended with 4-6wk intervals.

**A-ZYME** — This revolutionary treatment combines fast-acting potent ingredients Retinol & Bromelain to refresh, refine, intensely hydrate and plump your skin.

Why is it different? The A-Zyme Peel combines scientifically proven powerful ingredients Retinol & Bromelain in a break through technologically advanced formula to dramatically diminish fine lines, wrinkles, pigmentation & improve skin luminosity and skin tone.

**MICRODERMABRASION** — This treatment combines the benefits of clinical diamond microdermabrasion and Sonophoresis (sound wave technology). It is a non-invasive procedure that can be used to treat a number of skin care concerns with no downtime.

**LED PHOTOTHERAPY (Light Emitting Diode)** — Achieve healthier, younger looking skin & significantly reduce signs of ageing and improve notably skin texture and complexion.

Research has shown the beneficial role of light emitted at certain wavelengths of the visible spectrum in stimulating fibroblast activity (the support cells present in the skin's connective tissue) and promoting synthesis of collagen and elastin. "LED" Treatments gradually and durably repair the skin surface and effectively combat the visible signs of acne, rosacea, hydration and ageing.

Course of 9 treatments – 680

**HEALITE II™**

This is the next generation of Light Therapy for the face or body. It is a Medical Grade skin or muscular treatment that is a beneficial addition to virtually all aesthetic treatments. It also can be used pre or post all surgical and non-surgical treatments for decreasing downtime. The 633nm (red light) stimulates collagen production, cellular energy, serotonin to the brain, natural hydration and blood flow to tissue. The 830nm (yellow light) provides pain relief to muscles & joints, wound healing, skin tightening, decreases deeper lines & wrinkles & rejuvenates skin.

1 face session \$100 / course of 9 \$765

1 body session \$60 / course of 9 \$450

**PILATES SENSATION** — Give yourself a fresh new defined appearance. This non-surgical facial machine helps contract and relax your facial muscles to lift, firm and soften lines.

## INTENSE PULSE LIGHT HAIR REMOVAL

Our Or-light machine is created and made in France. The latest generation in IPL makes it possible for us to work with optimal efficiency, while drastically reducing the risk of burning. The patented technology guarantees safety, reliability, quality, satisfaction and flawless performance.
